

FiberTrack™ Indoor Fiber Runner

Overview

FiberTrack™ Indoor Fiber Runners streamline fiber optic cable management by routing and shielding cables through a customizable system of durable, interlocking channels. Constructed from UL94-V0 rated rugged ABS or PVC, these runners offer superior flammability protection and long-term reliability.

Designed for fast, tool-less installation, FiberTrack™ components—including elbows, tees, crosses, and more—can be easily combined to create tailored routing solutions. Available in both 120mm and 240mm sizes, they are ideal for high-density network environments requiring efficient, scalable cable management.

Key Features

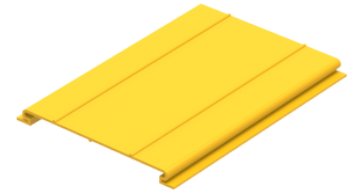

- Modular Design for fully customizable routing
- UL94-V0 Rated for enhanced fire safety
