

# FiberTrack™ Indoor Fiber Cable Runner

**FIBERTRONICS**

## Overview

FiberTrack™ Indoor Fiber Cable Runners make cable management simple, clean, and fast. Built from rugged, flame-retardant ABS or PVC, these interlocking channels protect your fiber and keep your network looking sharp—no tools, no hassle.

Snap together elbows, tees, and crosses to build a custom route that fits your space, not the other way around. Available in 120mm and 240mm sizes, FiberTrack™ is made for high-density installs where efficiency matters and downtime isn't an option.

*Whether you're scaling up or cleaning up, FiberTrack™ keeps it all on track.*

## Why FiberTrack™?

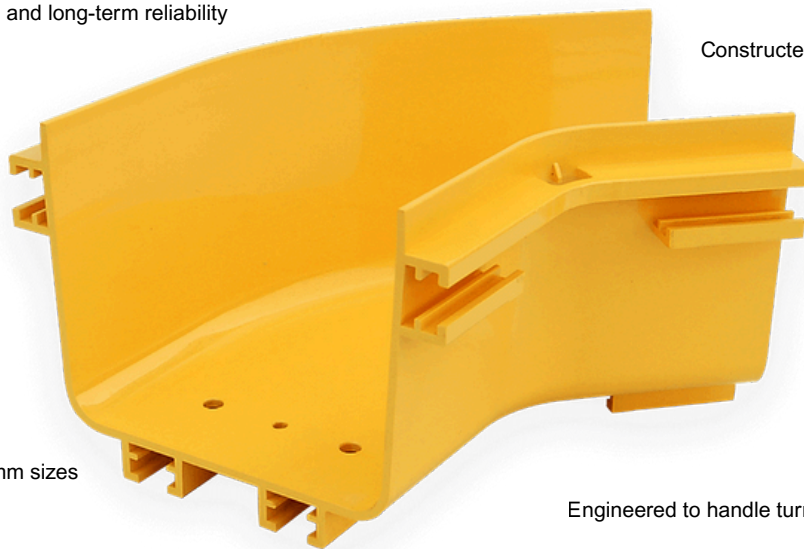

- Modular Routing Made Easy – Snap together pieces to build your path, your way.
- Fast, Tool-Free Setup – Just click it together—no tools, no delays.
- Made to Last – Designed for long-term reliability and minimal maintenance.

## Perfect for:

- Data centers that demand efficiency
- Telecom rooms where space is tight
- Office builds with evolving infrastructure

Superior flammability protection and long-term reliability

Constructed from UL94-V0 rated rugged ABS or PVC

Available in both 120mm and 240mm sizes

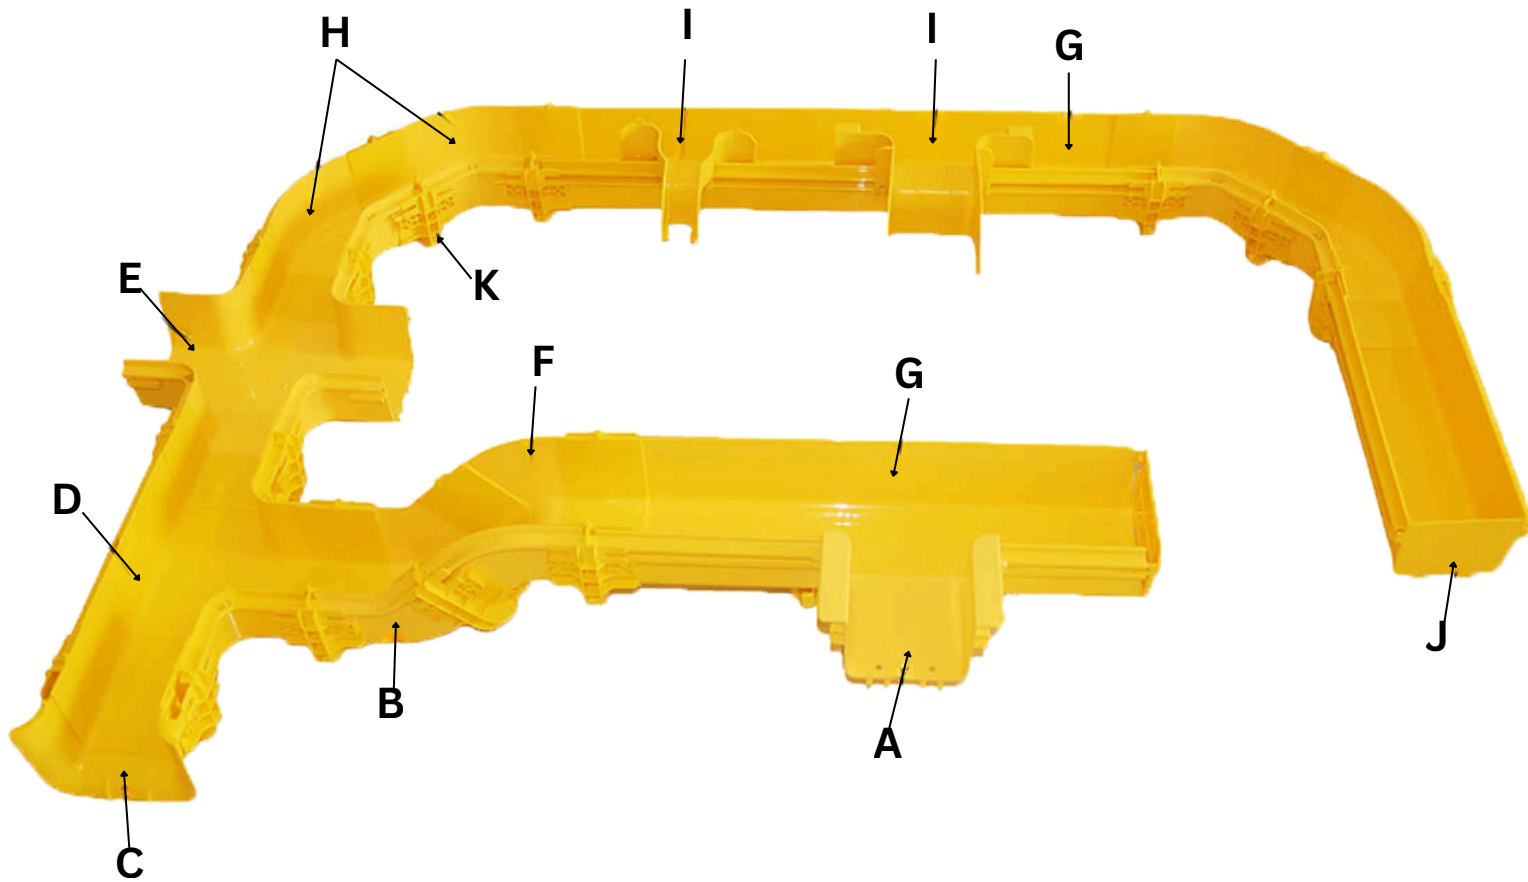

Engineered to handle turns and transitions with zero stress

## Configuration Options

**Not finding what you want check out more options on our website [fibertronics.com](http://fibertronics.com)**

**\*\*\*Please Note:** Replace XXX with 120mm or 240mm for proper part number

A	FTRK-XXXY-MT	Multi-functional Tee
B	FTRK-XXXY-45-IE	45° Inner Elbow
C	FTRK-XXXY-TC	Trumpet Component
D	FTRK-XXXY-TG	T Groove
E	FTRK-XXXY-4W	4-Way
F	FTRK-XXXY-45-OE	45° Outer Elbow
G	FTRK-XXXY-2M-SG	Groove
H	FTRK-XXXY-45-HE	45° Horizontal Elbow
I	FTRK-XXXY-MOS	Mobilizable Outlet
J	FTRK-XXXY-PB	Port Bezel Component
K	FTRK-XXXY-CC	Connect Component
