

Optiwave™ Series Adapter Plates

High-Density, LGX-Compatible Fiber Termination Solutions

Overview

The Fibertronics Inc. Optiwave™ Adapter Plates are engineered for seamless integration with the Optiwave™ Series patch panels and any LGX-compatible hardware. Designed for quick installation and reliable performance, these adapter plates offer a flexible, scalable solution for fiber optic terminations across a wide range of network environments. With a variety of port configurations and connector types, the Optiwave™ Adapter Plates help streamline cable management while maximizing panel capacity.

Key Features

- LGX-Compatible Design
- High-Density Options
- Flexible Port Configurations
- Durable Construction
- Tool-Less Installation
- Labeling Areas
- Clean, Professional Finish

Typical Applications

- Data Centers
- Telecommunications
- Enterprise LANs
- FTTx Deployments
- Broadcast & Media
- Industrial Networks
- Test Labs

Technical Specifications

Material	16-Gauge Powder-Coated Steel
Dimensions	5.130" x 1.150" (13.03cm x 2.92cm) LGX footprint with standard 4.646" (11.80cm) pin spacing
Mounting Compatibility	Optiwave™ Panels, LGX Systems
RoHS Compliant	Yes

Ordering Information

To order, specify:

Connector Type:

- LC
- SC
- ST
- FC
- MPO

Fiber Count:

- 6
- 8
- 12
- 24

Color Coding:

- Blue
- Green
- Beige
- Aqua
- Magenta
- Black
- Metal
