

Optiwave™ Series Patch Panels

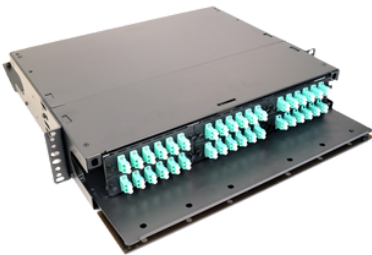

Modular, High-Capacity Fiber Termination and Management Solutions

Overview

The Fibertronics Inc. Optiwave™ Series delivers a versatile line of fiber optic patch panels designed to support a wide range of network installations. Built on the industry-standard LGX footprint, these panels ensure seamless compatibility with Optiwave™ adapter plates and cassettes. Whether in high-density data centers or small-scale enterprise deployments, Optiwave™ patch panels offer scalable, space-efficient fiber management without compromising performance.

Key Features

- LGX-Based Design
- High-Density Capacity
- Multiple Size Options
- 19"/23" Rack Compatibility
- Durable Steel Construction
- Black Powder Coat Finish
- Slide-Out Tray Design
- Front and Rear Access
- Locking Front Door
- Space-Saving Layout

Typical Applications

- Data Centers
- Telecom Facilities
- Enterprise Networks
- FTTx Networks
- Broadcast & Media
- Industrial Environments
- Government & Military
- Education

Technical Specifications

Material	16-Gauge Powder-Coated Steel
Color	Black
Mounting Style	19"/23" Rack-Mountable
Access	Front and Rear, Slide-Out Tray
Door	Lockable Front Panel Door
RoHS Compliant	Yes

Accessories

- 4 Velcro Straps
- 1 Pack of Mounting Screws
- Ground Screws
- Cables Ties
- Location Label
- Laser Warning Label
